

The Palms Center

SUITE 15620 #9 through #11
3,025 sq. ft.

Proposed Daycare Floor Plan

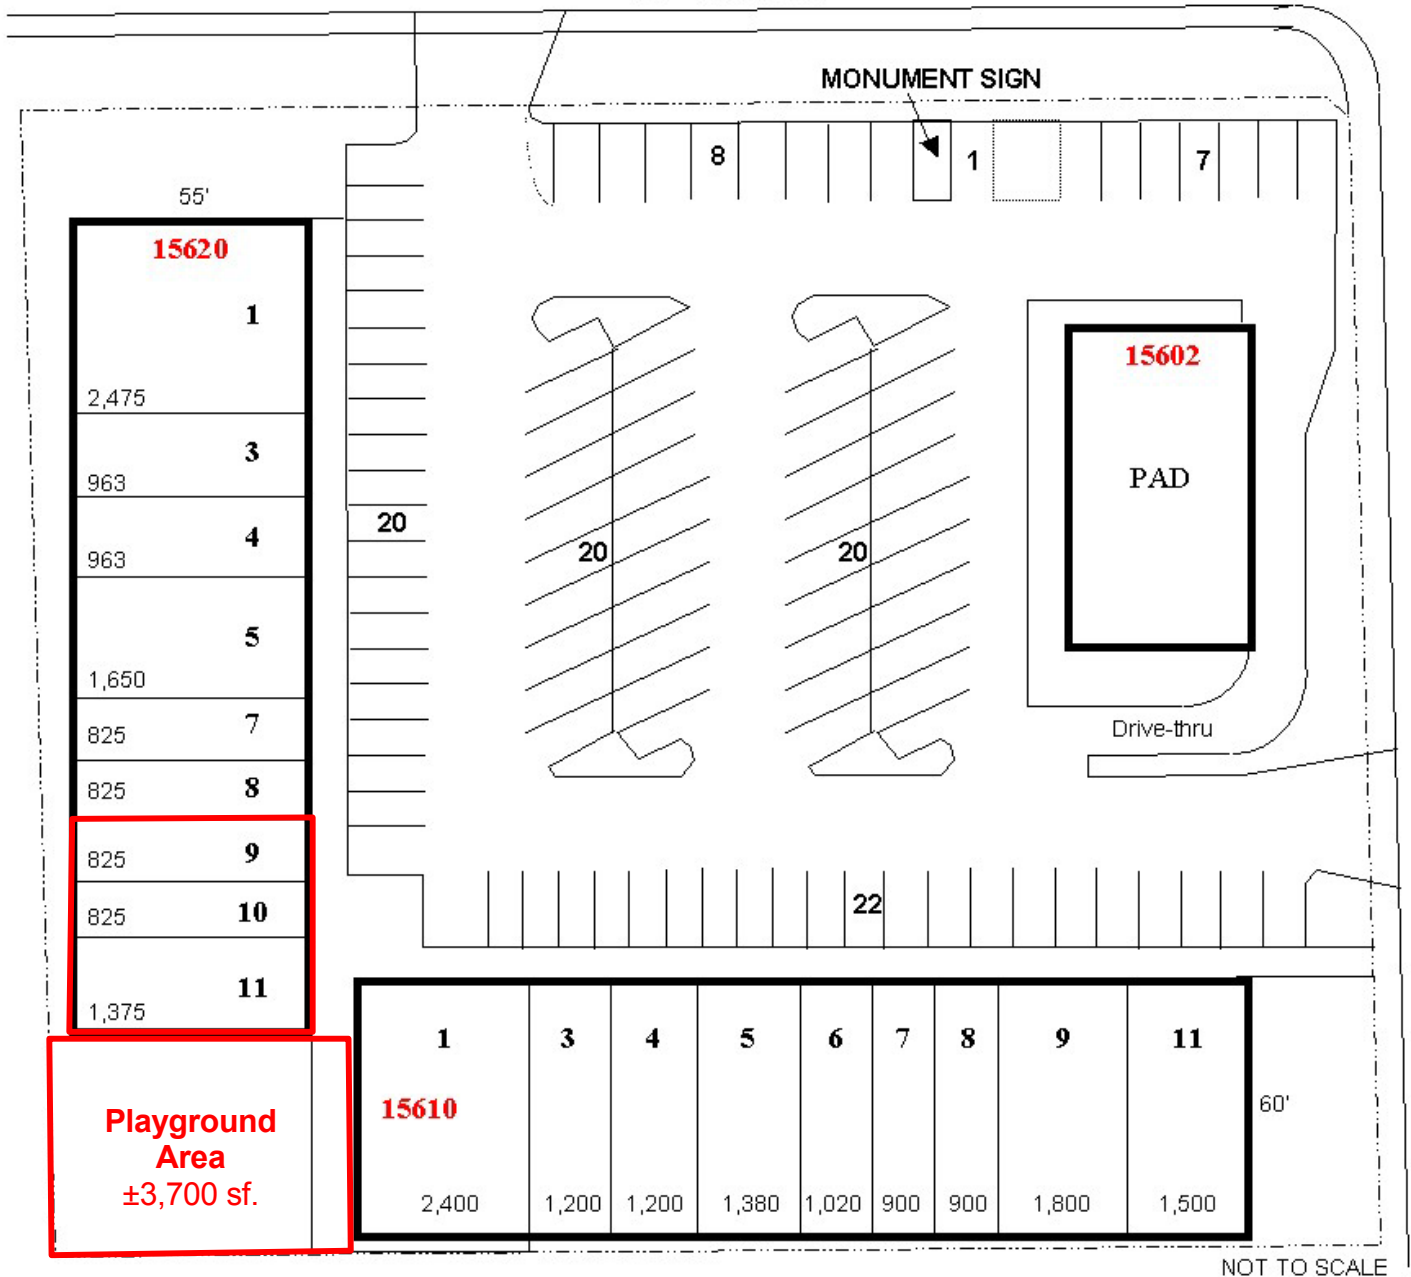

Approximately to scale
All dimensions are approximate and to the middle of the walls.

The Palms Center

SITE PLAN

35th AVENUE

Playground Area

This area in the corner of the center would be perfect for a playground. It is private, secure and surrounded by large trees.

This area is approximately 3,700 sq. ft. (55' x 68'), making the ratio of playground to interior space 82%.

A fence could be added on the north property line to make this a totally enclosed area.

A door could be added in the existing glass area to create private access to the playground.
